Co-Founder of BIO-TECH

# OUR STORY

The history of BIO-TECH is the story of Marti and Dale Benedict. In 1954 Marti and Dale met at a Valentine's Day church event in San Antonio, Texas. They married in 1955; both young, intelligent, energetic and anxious to make their positive mark in the world. Early in their relationship they joined hands and knelt together listening for direction and guidance for their life. Alleviating suffering and promoting health is the passion that drove Marti & Dale's purpose. Both families included missionaries reaching out with integrity and faith to those in need whether in India, China, Africa, South America, or at home.

Marti and Dale were a team that in 1975 attended a conference on "Medicine of the Future" where the usage of nutrients was highlighted as a preventative health measure. This conference changed Dale's world; he then spent more than six months on research. Convinced, Dale shifted his focus towards the dietary supplement industry to help people all over the world. Dale's medical knowledge, medical school training and years of work in the pharmaceutical industry prepared him well and made it easier to connect with industry leaders and prominent doctors throughout the US. Since Marti was sensitive to additives, she encouraged Dale to start manufacturing quality hypoallergenic supplements that were challenging to find at that time.

Dale and Marti Benedict decided to launch BIO-TECH in 1984, driven by a mission to improve lives by producing pure, clean, hypoallergenic, and high-quality dietary supplements. Marti was the CEO at BIO-TECH for many years as Dale promoted the company at conventions, built connections in the medical community, and initiated new product development with the prominent doctors all over the world. Since the founding of the company, BIO-TECH was a family business, everyone contributed to the success. Historically, over one hundred top research institutions used BIO-TECH products to advance science, and this tradition continues today. Premium nutrition at the cellular level, BIO-TECH manufactures high-quality dietary supplements for physicians, clinics, hospitals, and pharmacies worldwide.

*Dale established Bio-Tech M&D in memory of his beloved wife, Marti and her dream to touch people's lives all over the world with high-quality dietary supplements.*

# OUR PRODUCTS

## B<sub>12</sub>-METHYL

- Supports cardiovascular and nervous system health<sup>†</sup>
- Important for energy production and metabolism<sup>†</sup>
- Promotes healthy cognitive function and restful sleep <sup>†</sup>
- Formulated with methylcobalamin, a bioavailable form of vitamin B<sub>12</sub><sup>†</sup>

Vitamin B<sub>12</sub> is an essential nutrient with roles in energy production, red blood cell formation, and DNA synthesis<sup>†</sup> Research indicates that vitamin B<sub>12</sub> may support cardiovascular health by balancing homocysteine metabolism<sup>†</sup> Supplementation with vitamin B<sub>12</sub> may also promote healthy cognitive function and facilitate restful sleep.<sup>†</sup> Obtaining adequate amounts of vitamin B<sub>12</sub> from diet alone may be difficult for vegetarians and individuals with digestive disorders. B<sub>12</sub> Methyl provides 1000 mcg of methylcobalamin, an active form of vitamin B<sub>12</sub> that is more bioavailable than commonly used cyanocobalamin<sup>†</sup>

### Ordering Options:

45560MD 60 vegetable capsules

#### Serving Size 1 Capsule

	Amount Per Serving	% Daily Value
Vitamin B <sub>12</sub> (as methylcobalamin)	1,000 mcg	41,667%

\*Daily value not established.

Other Ingredients: Microcrystalline cellulose, vegetable capsule, maltodextrin. Contains NO: Dairy, egg, fish, shellfish, nuts, wheat, gluten, soy, sugar, yeast, artificial preservatives or color.

## D3-5™

- Supports bone, cardiovascular, neuromuscular, and immune health †
- Adequate calcium and Vitamin D may reduce the risk of osteoporosis † (taste-free, odor-free, hypoallergenic)
- Dry, water-soluble preparation of natural Vitamin D3 (cholecalciferol)
- More potent than Vitamin D2 for raising Vitamin D blood levels †

Vitamin D functions as a hormone, a chemical messenger with widespread effects in the human body.† It is important for optimal bone, cardiovascular, neuromuscular, and immune health.† Adequate calcium and Vitamin D throughout life, as part of a well-balanced diet, may reduce the risk of osteoporosis.† Supplementation with Vitamin D may be necessary to meet daily needs, since obtaining sufficient Vitamin D from natural food sources and sun exposure alone can be difficult. Vitamin D3 (cholecalciferol) is approximately 87% more potent than Vitamin D2 for raising and maintaining Vitamin D blood levels.‡

### Ordering Options:

- 24460MD 60 gelatin capsules - 5,000 IU
- 48860MD 60 vegetable capsules - 5,000 IU

Serving Size 1 Capsule		
	Amount Per Serving	% Daily Value
Vitamin D3 (as cholecalciferol)	125 mcg (5,000 IU)	625%

Other Ingredients: Microcrystalline cellulose, gelatin or vegetable capsule  
 Contains NO: Dairy, egg, fish, shellfish, nuts, wheat, gluten, soy, sugar, yeast or artificial colors.  
 Vitamin D blood levels should be monitored. A panel of 41 recognized vitamin D experts agree that blood serum levels should be in range of 40-60 ng/mL (125-250 nmol/L) of 25(OH) vitamin D, although some recommend levels outside of this range.\*\*

## D-MANNOSE™

- Supports bladder and urinary tract health †
- Does not interfere with blood sugar regulation †
- Formulated with pure, all natural D-mannose
- Available in capsule and powder forms

Mannose is a simple sugar that occurs naturally in fruits such as cranberries and pineapples. The human body metabolizes only small amounts of mannose, while most is excreted unchanged. As mannose is flushed out of the body, it helps maintain a healthy bladder and urinary tract.† Supplementation with mannose should not interfere with blood sugar regulation because very little is converted into glucose.‡

Ordering Options:  
40760MD 50 gelatin capsules

### Serving Size 1 Capsule

	Amount Per Serving	% Daily Value
D-Mannose	350 mg	*

\*Daily value not established.  
Other Ingredients: Gelatin capsule.  
Contains NO: Dairy, egg, fish, shellfish, nuts, wheat, gluten, soy, yeast, artificial preservatives or colors.

## A-25™

- Essential nutrient for eye, bone, and skin health<sup>‡</sup>
- Promotes optimal night and low-light vision<sup>‡</sup>
- Supports a healthy immune system<sup>‡</sup>
- Dry, water-soluble preparation of Vitamin A palmitate

Vitamin A is essential to a broad range of physiological processes. It is vital to eye health and is particularly important for optimal night and low-light vision.<sup>‡</sup> Vitamin A affects gene regulation, cell growth, bone metabolism, and skin health.<sup>‡</sup> Supplementation with Vitamin A supports immune health by maintaining the integrity of the cells that line the airways and digestive tract.<sup>‡</sup> It may play a role in triggering immune cells into action.<sup>‡</sup> Bio-Tech's A-25 is formulated with a dry, water-soluble preparation of Vitamin A palmitate. The palmitate form of Vitamin A occurs naturally in fish, eggs, and dairy products.

**Ordering Options:**  
21860MD 60 gelatin capsules

### Serving Size 1 Capsule

	Amount Per Serving	% Daily Value
Vitamin A (as vitamin A palmitate)	7,500 mcg RAE (25,000 IU)	833%

\*Daily value not established.

Other Ingredients: Modified food starch, gelatin capsule, maltodextrin, medium chain triglycerides, sucrose, sodium ascorbate, silicon dioxide, mixed tocopherols and microcrystalline cellulose.

Contains NO: Dairy, egg, fish, shellfish, nuts, wheat, gluten, soy, yeast, artificial preservatives or colors.

## B-STRESS NON-YEAST

- Supports cardiovascular, immune, and nervous system health<sup>‡</sup>
- Aids in healthy metabolism and energy production<sup>‡</sup>
- Formulated with eight essential B vitamins

B vitamins are essential nutrients that play roles in a wide range of physiological processes.<sup>‡</sup> An adequate intake of these nutrients is critical for healthy metabolism and energy production.<sup>‡</sup> Supplementation with B vitamins also supports cardiovascular, immune, and nervous system health.<sup>‡</sup> Most B vitamins are not stored in the body, so they are best acquired on a daily basis. Unfortunately, the B vitamin content of many foods is destroyed or lost during cooking and processing. B-Stress is formulated with the eight essential B vitamins, plus other supporting nutrients, providing a convenient way to meet daily nutritional requirements.<sup>‡</sup>

Quatrefolic® is a registered trademark of Gnosis S.P.A.

## FOLIC ACID (20mg)

- Maintains healthy homocysteine levels †
- Supports cardiovascular, bone, and nervous system health †
- Formulated with active forms of vitamin B<sub>6</sub>, folate, and vitamin B<sub>12</sub> †

Folic Acid is formulated with a combination of B vitamins that are important for maintaining healthy homocysteine levels.† Homocysteine is a byproduct of protein metabolism that can damage connective tissues and contribute to oxidative stress. High-protein diets, poor nutrition, and genetics factors can result in elevated homocysteine levels. However, supplementation with vitamin B<sub>6</sub>, folate, and vitamin B<sub>12</sub> can balance homocysteine metabolism.† B<sub>6</sub>-Folic Acid is formulated with the active forms of these nutrients, providing support for cardiovascular, bone, and nervous system health.

Ordering Options:

## CURCUMIN

- Supports cognitive, joint, and cardiovascular health<sup>‡</sup>
- Aids in chemical detoxification<sup>‡</sup>
- Excellent source of potent antioxidants<sup>‡</sup>
- Regulates normal inflammatory responses<sup>‡</sup>

Curcumin is a natural extract derived from turmeric root, which has been used for centuries to add flavor and color to many Asian foods. Current research indicates that curcumin is a potent antioxidant that can protect against oxidative stress and regulate normal inflammatory responses.<sup>‡</sup> Supplementation with curcumin promotes cognitive, joint, and cardiovascular health.<sup>‡</sup> Curcumin also aids in chemical detoxification by supporting the liver and kidneys.<sup>‡</sup> Bio-Tech Curcumin is formulated with Curcumin C3 Complex<sup>®</sup> from Sabinsa, which has been used in numerous clinical studies and is trusted for its consistent quality.

## D3PLUS®

Formulated with important co-factors that work synergistically with vitamin D to maximize potential health benefits. †

Vitamin D functions as a hormone, a chemical messenger that has widespread effects in the human body. In addition to its role in the development of strong bones, vitamin D is important for optimal cardiovascular, neuromuscular, and immune health. ‡ Bio-Tech D3Plus is formulated with important co-factors that work synergistically with vitamin D to maximize potential health benefits. ‡

- Excellent source of natural vitamin D3 (cholecalciferol)
- Minerals important for vitamin D metabolism, including magnesium, zinc, and boron
- Vitamin K2 to direct calcium deposition to bones instead of soft tissues, a factor in both skeletal and cardiovascular health †
- Formula endorsed by the Vitamin D Council, an organization with a mission to end the worldwide vitamin D deficiency epidemic by means of outreach, awareness, treatment, research and activism

Contains NO: Dairy, egg, soy, fish, shellfish, nuts, wheat, gluten, sugar, yeast or artificial colors.

Individuals taking blood-thinning medications should consult a healthcare professional.

## OMEGA-OIL™

- Supplies omega-3 fatty acids that are vital to the brain, eyes, and cardiovascular system<sup>‡</sup>
- Supports healthy mental functions, including mood and memory<sup>‡</sup>
- Provides 300 mg of EPA and 200 mg of DHA from all-natural fish oils
- Processed to remove heavy metals and other contaminants

Omega-3 essential fatty acids are healthy fats that have important functional roles. These nutrients are not synthesized by the human body and must be obtained from the diet. Fish oils are a rich source of the omega-3 fatty acids EPA (eicosapentaenoic acid) and DHA (docosahexaenoic acid). DHA is the most abundant omega-3 fatty acid in the brain and retina. Clinical research suggests that both DHA and EPA are important for maintaining mental health.<sup>‡</sup> Supportive but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease.<sup>‡</sup>

## C-MAX™ MINERAL ASCORBATE CAPSULES

- Essential nutrient and powerful antioxidant †
- Supports immune system health and normal histamine levels †
- Promotes tissue repair after injury or surgery †
- Formulated with buffered vitamin C and citrus bioflavonoids

Vitamin C also known as ascorbic acid, is an essential nutrient and powerful antioxidant that supports overall health. † Vitamin C is required for the synthesis of connective tissues in blood vessels and bones, making it important for tissue repair following injury or surgery. † Supplementation with vitamin C also supports immune system health and aids in the balance of normal histamine levels. † C-Max provides buffered vitamin C as a blend of natural citrus bioflavonoids and fully-reacted mineral ascorbates, which are less acidic than ascorbic acid and are gentle on the digestive system. †

### Ordering Options:

## MELATONIN

- Promotes healthy sleep-wake cycles and relaxation †
- Assists with jet lag, altered sleep schedules, and occasional sleeplessness †
- Potent antioxidant that may support immune, cardiovascular, and bone health †
- Available as 3 mg per capsule

Melatonin is a natural hormone secreted by the pineal gland of the human brain. It is important for maintaining normal circadian rhythms and sleep-wake cycles. Natural production of melatonin from the amino acid L-tryptophan may decrease with age. Supplementation with melatonin may be beneficial for individuals with altered sleep schedules due to jet lag or shift work. It may also assist those who experience occasional sleeplessness. † Melatonin is a potent antioxidant that may support immune, cardiovascular, and bone health.

## D3-K2<sup>®</sup>

- Supports bone, cardiovascular, and immune health †
- Promotes calcium absorption and transport to bones †
- Formulated with natural vitamin D3 (cholecalciferol)
- Formulated with vitamin K2 as menaquinone-7

This product is specially formulated to contain both vitamin D3 and vitamin K2. Vitamin D3 functions as a hormone, a chemical messenger with widespread effects in the human body. † It is important for optimal bone, cardiovascular, and immune health. † In addition to these benefits, Vitamin D3 also promotes calcium absorption. † Vitamin K refers to a group of compounds that vary in their absorption, metabolism, and tissue distribution. † It works with vitamin D to direct calcium deposits to bones instead of soft tissues, providing support for both skeletal and cardiovascular health. † Vitamin K also activates proteins involved in normal blood coagulation which is important for vascular health. † Bio-Tech’s D3-K2 uses vitamin K2 as menaquinone-7 which is highly bioavailable. †

Ordering Options:

GLUTEN FREE

ISWA  
HALAL-CERTIFIED

Pros-Tech Ultra is a unique combination of ingredients formulated to support prostate, urinary, and male reproductive health. †

**Zinc**- An essential mineral that serves as a cofactor for over 100 enzymes and is found in high concentration in healthy prostate glands †

**Green Tea Extract**- A great source of bioavailable compounds, including polyphenols, that help protect against oxidative stress. †

**Quercetin dihydrate** – A natural flavonoid that is found in many plants and foods. It has antioxidant effects that support a variety of health benefits including cardiovascular and gastrointestinal health. † Not only does it act as an antioxidant, it also has anti-inflammatory effects. †

**Cranberry Extract** - Cranberries are known to contain polyphenols, tannins, and other phytonutrients. Research has shown that these nutrients play a role in urinary tract health. †

**Tocotrienols** Tocotrienols reduce free radicals and may help to promote normal cardiovascular function and supports brain and liver health. †

**Curcumin**- A natural extract derived from turmeric root. Curcumin is a potent antioxidant that can protect against oxidative stress and regulate normal inflammatory responses. †

**Beta-Sitosterol**- Beta-Sitosterol is a phytosterol found naturally in plants such as vegetable oil, nuts, and avocados. Beta-Sitosterol supports healthy cholesterol levels and normal urinary function. †

**Vitamin D3** Vitamin D functions as a hormone, a chemical messenger that has widespread effects in the human body. In addition to its role in the development of strong bones, vitamin D is important for optimal cardiovascular, neuromuscular, and immune health. †
